HONOLULU, AUGUST 2, 1887.

Considerable activity seems to prevail about the docks, the number of large and small craft, being unusually large.
Following is Williams, Diamond & Co.'s circular, received ex Australia, on Tuesday

SAN FRANCISCO, July 19th, 1887. Our last circular was dated June 21st, per steamer Australia.
SUGAR.—The prices of the American Sugar

SUGAR.—The prices of the American Sugar Refinery Co., have remained without a change since June 1st. On the 5th lint., the California Refinery reduced its prices &c. per lb. on all grades, except Extra C. and Golden C. which remain unchanged or &c. and Golden C. which remain unchanged or all other grades are the same. The Cuba basis for deliveries to the American Refinery under contract, remained at 5 3-16c. from May 11st to July 18th. On this date according to sales in New York, it advanced to 5 7-32c. and again on the 14th to 5kgc. for 96° test, which is the basis to-day.

Eastern and Foreign Markets:—Since our last circular there has been a better feeling shown in Raws in all of the principal markets of the world and prices have advanced in the European markets and strengthened somewhat in New York

The advance is said to be due to speculation based upon lighter crops and anpropitions weather, but the difference in value between spot and future deliveries is too great to be healthly maintained. Y. the 7th inst, state that there are some features
of the sugar situation which can be seen to point
to an improvement in prices in the United States.
The most important is the question of future
supplies as compared with last year.

European being 'gc. above the parity of our

in prices, we will not receive the 61,000 tons Beet
Sugar which came to us from July to December

stock of sugar in Cuba July 1st was 145,000 The stock of sugar in Cuba stay are same time tone (six ports) against 220,000 tons at same time

The United States received from Cuba 225,000 tons from July 1st to December 31st, 1886. Applying the same basis we will receive 130,000 tons during the last half of this year, which is a minus of 75,000 tons. Considering the heavy excess of receipts from other West Indies 57,000 tons, it seems probable that receipts from thence with show a minus for last half of year. The Philippines will certainly show a fainus-Brazil lathe only producing country which may give surplus receipts.

However until the expeciation is further con-

firmed, and the present excess of stocks in the United States (44,340 tons) has been taken care of, baiders will probably continue to meet buyers on the old basis of values.

Total stocks in all the principal countries, July 7th, was 1,022,935 tens against 1,025,935 tens last wear, and against the previous week's figures of 1,185,934 tens, and 1,214,782 tens.
The reduction of total stocks in all countries from January 1st to June 1st. was 257,784 tens, against 48,215 tens reduction for same time last year.

The streams are very high from the recent rains which have been heavy, especially in the woods.

A new spar-bnoy was placed on the reef by the steamer Kilauea Hou, on Monday. Our roads are also receiving immediate necessary repair, both in town and throughout the district, so that we are already beginning to feel the effect of the late changes in Government.

Last week a meeting was called for Saturday night by the natives to discuss the Con-stitution, but only two or three attended, so it was adjourned until Toesday evening of this week, when about fifty natives and as many whites put in an appearance. Mr. W. White, a half-white, said that the new Constitution was bad, in that it was very partial to whom it gave the franchise. He thought it was wrong to exclude the Chinese and Japanese, and particularly the latter, as there was a treaty with Japan which required us to respect the rights of the Japs, and he thought they should be entitled to vote as well as any American. We are also called upon to take an oath to support the new Constitution before we can vote, and I advise you not to do so, but rather remain at home and not vote at

Ben. Brown approved of White's remarks, and referred to the petition to the King, asking all natives to sign it.

Judge Lyman then arose and made a long speech. He took the new Constitution and explained it to the natives, touching strongly on the features that are the trouble to them, He said, in concluding, that there might be changes required in it, but that the proper time to do so was at and through the Legi-lature. He advised all natives to take the oath and vote, and then when the Legi-

ture convened to present their grievance of any. He also said it was useless to petition the King, and advised them not to do it.

D. H. Hitchcock then arose and explained the reason why the Chinese and Japanese were not allowed to vote; touched briefly on the Constitution generally, and called on all

to take the oath and vote. John T. Baker, our Sheriff, followed in a very persecuted tone. The stories which were circulated about him during the height of the revolutionary proceedings he denied, and then, turning to the Bible for consolation, said that Jesus was a poor, persecuted man, and was always being led about, and he thought be felt something like Jesus now. He appeared to be conciliatory from stress of circumstances. Referring to the change in the Constitution, and the troubles at-tendant, he said "the haoles whispered and the deed was done." It came upon them so quick they could hardly realize the change, but they had better probably accept the state

of affairs. Kekoa, of Puns fame, was now seen toddling forward, his feet swathed in ban-dages. It is quite apparent that his high living in coffee shops while in attendance on the last Legislature has told seriously on him, and we never more expect to see Kekoa free from coffee gost. It is really too bad that the bill "to regulate the strength of coffee in restaurants" did not pass last session, when we see such sad havoc played with a man as this. But our legislators should not live so high. If we only had Jim Keene, or some other Wa'l-street bull, to run a coffee corner, we might expect to save the next Legislature. Housever, Kekoa soon warmed up, and launched into a strong denunciation of the Constitution, and advised all natives not to take the oath or support it

in any way.

An old kanaka from the country spoke up, and, with kanaka volubility, praised the Constitution, raked Bill White and all nonsupporters mercilessly over the coals; said he did not think Chinese or Japanese should wote, and then called upon all kanakas to

KAUAI CONVENTION.

Report of the Meeting.

In response to invitations issued by Mr. George N. Wilcox and Mr. W. H. Rice, of Lihue, a convention was held at Mr. Rice's on Thursday, July 28, 1887, for the purpose of nominating Nobles and Representatives to represent Kausi at the coming session of the Legislature. The meeting consisted of about seventy foreigners and Hawaitans, representative men from all the districts of the Island.

The meeting was called to order at 11 o'clock. Mr. W. H. Rice was elected to preside, and Mr. George C. Potter as Secretary. Mr. Rice stated briefly the object of the convention, whereupon a motion was made that the Chair should appoint a committee of six to select six names for Nobles, three of which should be chosen as candidates.

The following gentlemen were appointed on the committee: Messrs. Chas. Koelling. votes. Mr. Wilcox, Mr. Dole and Mr. Bertlemann having received the highest number of votes, were declared elected. The choice was then made unanimous.

A motion was also made that a committee be appointed to make nominations for Representatives—two nominations for each district of the Island. The committee, consisting of Messrs. A. Robinson, W. E. Row-ell, L. H. Stolz, A. McBride, Alapai, Kaiu, C. Koelling and Kahu, retired, and an adjournment was made for lunch.

Upon the reassembling of the convention the committee reported as follows: For Hanalei District-W. H. Rice, J. N.

Lehue District-A. S. Wilcox, S. R. Ha-Waimea District-William E. Rowell, J. Kamalenni.

It was moved that the report be accepted and that further nominations be in order; carried. Mr. Francis Gay's name was added to the list for the Waimea District, And upon the motion being made and carried, Mr. Rice and Mr. Wilcox exchanged districts The nominations were then closed and ballotted upon as follows:

Hanalei District-Mr. A. S. Wilcox, unanimously elected. Libne District-W. H. Rice 62 votes, W.

O. Smith 1, S. R. Hapuku 1, O. Scholtz 1. Mr. Rice was declared elected.

Waimea District—F. Gay 43 votes, J.
Kamaeenui 12, Wm. Rowell 5, Capt. Ahlborn Mr. Gay was declared elected. The election of Mr. Rice and Mr. Gay was

then made unanimous.

The nominees then addressed the convention in Hawaiian and English, the frequent applause showing that they expressed the sentiments of those present. A vote of thanks was passed to Mrs. Rice and the ladies associated with her for their kindness in preparing the excellent collation just partaken of

The following motion was made and unanimously carried: Resolved, "That the present assembly has the fullest confidence in the Cabinet now

administering the Government."
After a motion was made that the Secretary prepare a report of the day's proceed-ings for publication. The meeting adjourned GEO. C. POTTER, Secretary.

Kausi Up to the Times-

Our friends in Honolulu will doubtless be pleased to hear of the successful political meeting held at Libse on the 28th instant. At 11 a. m. people arrived from all parts of Mr. W. H. Rice was elected chairman, and

Mr. Potter, of Kapaa, secretary. The chair-man stated reason for call of caucus, which was to nominate Nobles and Representatives for the island of Kanai. After some discussion and quite a number

of nominations, it was put to ballot, and the following gentlemen received the largest number of votes: G. N. Wilcox, G. H. Dole C. Bertelmann. They were then declared unanimously nominated to run as Nobles.

All those nominated to run as Nobles or

Representatives were called on for speeches, most of which were in Hawaiian. This is said to have been the largest and

most unanimous meeting of the kind ever held on the island. Among those present from Waimea were Hon. W. E. Rowell, L. Stolz, G. B. Hoffgard, Hon. W. E. Rowell, L. Stolz, G. B. Hoffgard, F. Gay, A. and others. Beside these were many natives, most of them prominent men.
A very important feature of the meeting

must not be omitted. A resolution was pre-sented and unanimously carried that "We, the residents of Kauai, here assembled, do fully decide that we have great confidence in the present Ministry."

The Garden Island Ahead.

A correspondent on Kauai writes: "The convention held at Lihue on Thursday morning, the 28th instant, was one of the largest convened on the Island of Kauai, in which whites and natives from Hanalei to Waimea took part, and carried things with a cheerful and determined spirit. All expressed themselves satisfied with the result. The gentlemen nominated are noble men, and well fitted for the office selected for them-just what the Government want; men who will not sell their souls and conscie their honor and integrity; men of the bighest social and moral standing-nominees whom, I am sure, the whole Kingdom will endorse. Therefore, we can trust them with the sail-ing of the ship of state, and we hope to see other islands follow suit.

When the day of election comes, the people of Kauai will be like the brave Nelson before the battle of Trafalgar, when he shouted . England exp cis every man to do his duty. Kauai will do her duty to a man. We wish them God speed and fair sailing on the voy age, and a short passage by way of our new Constitution, and that they may build us a name that will stand before the world—honored and respected."

London, July 15.—A despatch from St. Petersburg, which has come by way of Gambinnen in Eastern Prussia, states that on July 10th, a band of religious fanatics attempted to murder the wife of Grand Duke Nicholas Constantovich, son of Grand Duke Constantine, uncle of the Czar. The cause given for the attack was that the Grand Duchess is a Lutheran and refused to modify the terms of her marriage covenant, which accorded her the privilege of remaining a Lutheran, and join the Greek Church. The fanatics were all arrested. The wife of Vladimir has been suspected of making proselytes, and this aroused fanatics against her. It is stated that previous to this attempt religious fanatics also tried to kill the Grand Duchess Eliz abeth, wife of Grand Duke Sergius. This lady is also a Protestant, being a daughter

of Grand Duke Louis IV, of Hesse. VIENNA, July 15 .- Prince Ferdinand to-day received the deputation sent officially to notify him of his election to the Bulgarian throne. London, July 15.—The Crimes bill was dis-cussed in committee in the Lords to-night. Lord Northbrook, Liberal, expressed surprise at the summary disposal of the debate on the bill yesterday, Before proceeding further with Irish Legislation he arged party leaders to give the country definite answers on four points: Were Irish members to remain in Westminster? Was the Province of Ulster to be treated separately from the rest of Ire-land? Was the duty to maintain law and order to be intrusted to an Irish Parliament? Was power over land to be committed to an

Irish Parliament? Lord Roseberry, Liberal, held that discussion on these points was outside the scope of the Crimes bill. Liberal peers were in a hopeless minority and could do no more than pro test against the bill. In conclusion, he said he felt bound to wurn the Government of the effects of the measure. Their administration

In the Commons to-night Sis James Fergu-son, Parliamentary Secretary for the foreign office, reported that the Egyptian Convention

had not been ratified by Turkey, and Sir Henry Drummond Wolff, Special Envoy, having the matter in charge, would leave Constantinople to-night. A heated discession occurred in the lobby of the Commons to-night between Dr. Tanner vnd Walter Hume Long, during which the former called Long a "d — d snob." The Speaker of the House will be informed of the

affair and trouble is expected. Berlin, July 14.-Alfred Krupp, brother of Frederick Krupp, of the great firm of cannon

makers, is dead. A German resident of Cambrai, Department of Nord, France, writes to the Mann-heim Journal that the anti-German feeling in Cambrai is very bitter, and that he and other Germans had narrowly escaped being killed. He and his countrymen were in sulted in the streets and it was hardly safe to venture out. The Kruz Zeitung, referring to this letter, says it is tolerable that Germans should have to endure it. France must be made to understand there is a "thus far

and no farther" in the matter. Tinsova, July 14.—The Sobranje has re-fused to accept the resignation of the Re-gents tendered them on the ground that their mission was completed now that the Sobranje had elected a Prince. The Regents will therefore remain in office pending the action of the Powers respecting the election.

London, July 13 .- The State Bulgarian deputation, sent to inform Prince Ferdinand of his election as Prince of Bulgaria, and invite him to go to Sofia and to assume the throne to which he was elected by the So-branje, and confront the Powers with the accomplished fact of his occupancy of the Bulgarian throne.

Rome, July 13.—The Pope is suffering from a slight stomach affection and neuralgia. He craves iced drinks, notwithstanding his in-

TIRNOVIA, July 13.-The new Cabinet for Bulgaria has been formed as follows: M. Stailoff, President of Council and ad interim Minister of Finance; M. Ettchevico, Minister of Foreign Affairs; M. Tichomakoff, Minister of Public Instruction; M. Stransky, Minister of the Interior; Major Petroff, Minister of War. M. Stailoff has telegraphed to the Prefacts' Departments ordering them to release all political prisoners.

Berlin, July 12.—Emperor William will arrive at Gasten on Monday. During his stay he will make the Bodeschloss Hotel his headquarters. In that hotel, on the 24th inst., he will meet the Emperor, Francis Joseph, of Austria. Until this meeting the policy to be adopted to prevent the election of Prince Ferdinand, as Prince of Bulgaria, will not be determined. The present temper of the German court is against the election of a Coburger.

The Emperor of Germany has received favorably the appeals of the families of Echler and Bloch, members of the French Patriotic Legge, recently convicted of treason, and now imprisoned in the Fortress of Magdeburg. The appeals were referred to Herbert Bismarck, and an early release of the im-prisoned men is expected. The official Gazette of the Reichstag publishes the edict which requires, after the close of the present year, the use of the French language in judicial pleadings, shall be suppressed. The edict also provides that the use of French in judi-cial documents shall be suppressed at the close of the year 1888. The edict applies to Metz and other tribunals of commerce. Ar-rangements have been concluded by which the Federal Government political police ad-ministration has been unified with the central in the system hitherto existing in Prussia and several other States. It embraces the

whole of Germany.

The North German Gazette advises German residents in Paris to close their places of business and not show themselves in public on Thursday next, the anniversary of the fall of Insurance Company.

The annual report submitted to the meeting held on Wednesday. May 18, is a very remarkable one, even in the history of a very remarkable company. The result could not have been achieved by any accidental or spasmodic action, but must undoubtedly have come from a long course of very prudent management, of not merely the business which was to be retained, but that which had to be dispensed with. The company has been both progressive in its income and retrogressive in its losses,—two desirable facts which, we venture to submit, cannot be paralleled by any other fire insurance company in 1886. by any other fire insurance company in 1886. It has been singular, to say the least of it, and an exceptional piece of good luck any way. It will be observed that there has been a remarkably steady growth, and one which justifies the belief that the company has arrived at a pitch of unparalleled prosperity, where even a Chicago fire would fail to do more than arrest the extension of the reserve fund, though unable to cause even a ripple to show on the face of the dividends. That these dividends have been eminently

satisfactory, and that they have been paid out of the interest of reserves to all intents and purposes, is a vindication, if vindication is needed, of the soundness of that policy of the directors which, in spite of the temporary opposition of ill-advice of shareholders, has een steadily maintained with unswerving firmness for so many years past. It is, of course, a well-known fact that you cannot eat your cake and have it too; but it is equally true that, if you don't eat it, you have it to eat, all the more surely at your disposal. The value of the shares is none the less by reason of the reserve funds, but some future generation might equally lament any even partial distribution of these reserves, which might leave the company weakened ever so little, in the event of a possibly colossal calamity. Yet these dividends are not at all to be despised, for the dividend declared last yaer was at the rate of twenty-three shill-ings on the £2 paid-up shares, and this year has been increased to twenty-six shillings. It is not at all undeserved praise given by the directors in the report, wherein they re cord their indebtedness to the local boards, and their representatives and agents, both at home and abroad, for the valuable assistance rendered in obtaining these results.—Review,
